CRISP Nursery Committee

CRISP Nursery has a Volunteer Committee of Management who oversee the governance of the Nursery. The AGM is the opportunity to find out about the achievements of the Nursery over the past year and future plans.

The committee is made up of members with a variety of backgrounds, who meet once a month and work together to shape the future of CRISP Nursery. All committee positions become vacant and up for election at the AGM. If you are looking for an outlet to use your existing skills or interested in learning something new – why not consider joining the committee. If interested, have a chat with one of our current committee members or one of the nursery managers to find out more information, and pick up a Nomination form at the nursery.

New committee members are always welcome, and we'd love to have you on-board.

Saturday Sales Resume March 2nd

CRISP Nursery is well stocked with plants and will re-open for Saturday Sales from March 2nd from 10am-1pm

Weeding out invaders – an important new app

Funded by National Landcare, this Australian first can identify more than 450 priority invasive weeds country wide. Some 120,000 images were captured by CSIRO weed botanists so that users can take photos of weeds on their phone and identify them on the app. You may choose to share with relevant authorities. This potentially is a game changer for community groups or anyone interested in protecting or regenerating native habitat.

Download the app at weedscan.org.au

Friends of Wombolano

will hold their next Working Bee on Sunday March 24th from 2- 4pm, meeting in the playground. Please bring your own tools and afternoon tea.
